modification

See the Application Guides below to determine which Automatic transmission fluid is appropriate for your Mini. Mini does not list any fluids other than the factory fluids, but several manufacturers lists their products as 'compatible' with factory fluids - these options are listed under 'Alternate Fluids'. The factory recommended interval for the automatic transmission is 100,000 miles and MINI states the manual transmission fluid is a 'life-time fluid' that does not require fluid replacement.

Completed Automatic Transmission Fluid Guide for Your MINI ...

Finally, the Mechatronics is the “brain” of the transmission, a complex system of ports, valves and electronics that control all transmission functions. The one component of the entire system that’s critical to all of these parts working properly together is the Automatic Transmission Fluid, or ATF. It acts as a hydraulic fluid, to engage clutch packs & shift the gears. It acts as a corrosion inhibitor and wear protection for the Planetary Gear sets.

There are two basic types of automatic transmission fluids. Traditional (or regular) automatic transmission fluids are made from natural oils that are combined with antioxidants and corrosion inhibitors.

Synthetic automatic transmission fluids are man-made chemical polymers that perform the same functions.
