The author tries desperately to be funny and falls short about 98% of the time. Her insistence that “crazy is cute” is at best annoying, and at worst really very offensive to all the people who don’t get to make fun of their mental illnesses. We chose this book for book club and every person, to the person, hated it.

? Jenny Lawson, quote from *Furiously Happy: A Funny Book About Horrible Things* “I can tell you that “Just cheer up” is almost universally looked at as the most unhelpful depression cure ever. It’s pretty much the equivalent of telling someone who just had their legs amputated to “just walk it off.”

Furiously Happy: A Funny Book About Horrible Things For most of my life I’ve battled depression, anxiety and a host of other disorders, but I wrote this book less as a manual on how-to-survive-mental-illness and more of a compendium on how-to-thrive-in-spite-of-your-brain-being-a-real-bastard.

"Jenny made me laugh so hard I feared for my safety! I think that's how she was able to get past my defenses and make me feel more okay about myself." -Allie Brosh, author of Hyperbole and a Half For fans of David Sedaris, Tina Fey, and Mindy Kaling—the new book from Jenny Lawson, author of the #1 New York Times bestseller LET'S PRETEND THIS NEVER HAPPENED... In LET'S PRETEND THIS NEVER HAPPENED, Jenny Lawson baffled readers with stories about growing up the daughter of a taxidermist. In her new book, FURIOUSLY HAPPY, Jenny explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. And terrible ideas are what Jenny does best. According to Jenny: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos." "Most of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in The Breakfast Club, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.'" Jenny's first book, LET'S PRETEND THIS NEVER HAPPENED, was ostensibly about family, but deep down it was about celebrating your own weirdness. FURIOUSLY HAPPY is a book about mental illness, but under the surface it's about embracing joy in fantastic and outrageous ways—and who doesn't need a bit more of that?

In Furiously Happy, #1 New York Times bestselling author Jenny Lawson explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. But terrible ideas are what Jenny does best. As Jenny says: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. Like John Hughes wrote in The Breakfast Club, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.'" Furiously Happy is about "taking those moments when things are fine and making them amazing, because those moments are what make us who we are, and they're the same moments we take into battle with us when our brains declare war on our very existence. It's the difference between "surviving life" and "living life". It's the difference between "taking a shower" and "teaching your monkey butler how to shampoo your hair." It's the difference between being "sane" and being "furiously happy." Lawson is beloved around the world for her inimitable humor and honesty, and in Furiously Happy, she is at her snort-inducing funniest. This is a book about embracing everything that makes us who we are – the beautiful and the flawed – and then using it to find joy in fantastic and outrageous ways. Because as Jenny's mom says, "Maybe 'crazy' isn't so bad after all." Sometimes crazy is just right.

"It's the difference between surviving life and living life. It's the difference between taking a shower and teaching your monkey butler how to shampoo your hair." Jenny Lawson – aka The Bloggess – returns with the follow-up to her bestselling memoir Let's Pretend This Never Happened, recounting stories from everyday family life in her inimitably frank, hilarious, bizarre and endearing way. She describes her battles with depression and anxiety and her quest to overcome them by saying yes to even the absurdist opportunities and making the good times gloriously good. For as Jenny says: 'You can't experience pain without also experiencing the baffling and ridiculous moments of being fiercely, unapologetically, intensely and (above all) furiously happy...' It's a philosophy that has – quite literally – saved her life.

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of Furiously Happy. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent Let's Pretend This Never Happened, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a

Beautiful!" —Jay Asher, author of the #1 New York Times bestselling novel Thirteen Reasons Why "As someone with Tourette Syndrome, I grew up with a condition that others did not understand. It affected the way I was viewed and the way I viewed myself. I applaud Jonathan Friesen for telling a story about overcoming such a challenge in Unfolding.
